**Scholar** [All articles](#) - [Recent articles](#) Results **1 - 10** of about **22,400** for **modulator \* RAC**. (0.07 sec)

### Modulation of **Rac** localization and function by dynamin- ► [molbiolcell.org](#)

G Schlunck, H Damke, WB Kiosses, N Rusk, MH Symons ... - Molecular biology of the cell, 2004 - Am Soc Cell Biol

... negative dynamin-2. These results suggest that dynamin-2 is an essential **modulator** of **Rac** localization and therefore **Rac**-dependent cytoskeletal remodeling. ...

[Cited by 52](#) - [Related articles](#) - [Web Search](#) - [BL Direct](#) - [All 5 versions](#)

### ► A **modulator** of rho family G proteins, rhoGDI, binds these G proteins via an immunoglobulin-like ...

NH Keep, M Barnes, I Barsukov, R Badii, LY Lian, ... - Structure, 1997 - cell.com

... A **modulator** of rho family G proteins, rhoGDI, binds these G proteins via an ... flexible domain, both of which appear to be required for the interaction with **rac**. ...

[Cited by 73](#) - [Related articles](#) - [Cached](#) - [Web Search](#) - [BL Direct](#) - [All 6 versions](#)

### Minimizing static intensity modulation delivery time using an intensity solid paradigm

RAC Siochi - International journal of radiation oncology, biology, ..., 1999 - cat.inist.fr

Minimizing static intensity **modulation** delivery time using an intensity solid paradigm.

**RAC** SIOCHI International journal of radiation oncology, biology, physics ...

[Cited by 115](#) - [Related articles](#) - [Web Search](#) - [BL Direct](#) - [All 4 versions](#)

### Modulation of rabbit articular chondrocyte (**RAC**) proliferation by TGF- $\beta$ isoforms

K Boumediene, D Vivien, M Macro, P Bogdanowicz, E ... - Cell Proliferation, 1995 - interscience.wiley.com

Page 1. Cellrolij 1995, 28,221 -234 **Modulation** of rabbit articular chondrocyte

(**RAC**) proliferation by TGF-B isoforms K. Boumediene ...

[Cited by 32](#) - [Related articles](#) - [Web Search](#) - [BL Direct](#) - [All 3 versions](#)

### Nicotine inhibits human gingival fibroblast migration via modulation of **Rac** signalling pathways

Y Fang, KKH Svoboda - Journal of clinical periodontology, 2005 - ingentaconnect.com

... **modulation** of **Rac** signalling pathways Fang Y, Svoboda KKH. Nicotine inhibits human gingival fibroblast migration via **modulation** of **Rac** signalling pathways. ...

[Cited by 4](#) - [Related articles](#) - [Web Search](#) - [BL Direct](#) - [All 4 versions](#)

### **Rac** and Cdc42 are potent stimulators of E2F-dependent transcription capable of promoting

...- ► [jbc.org](#)

O Gjorup, J Lukas, J Bartek, BM Willumsen - Journal of Biological Chemistry, 1998 - ASBMB

... The arrows from **Rac**/Cdc42 to other pathways resulting in Cdk activation are ... yet have any evidence for their connection with other positive **modulators** of Cdk ...

[Cited by 71](#) - [Related articles](#) - [Web Search](#) - [BL Direct](#) - [All 4 versions](#)

### Regulation of cadherin function by Rho and **Rac**: modulation by junction maturation and cellular ... ► [molbiolcell.org](#)

RO Hynes, VMM Braga, A Del Maschio, L Machesky, E ... - Molecular biology of the cell, 1999 - Am Soc Cell Biol

... Vol. 10, Issue 1, 9-22, January 1999. Regulation of Cadherin Function by Rho and

**Rac**: **Modulation** by Junction Maturation and Cellular Context. ...

[Cited by 178](#) - [Related articles](#) - [Web Search](#) - [BL Direct](#) - [All 4 versions](#)

### ► The Nox family of NAD (P) H oxidases: host defense and beyond

M Geiszt, TL Leto - Journal of Biological Chemistry, 2004 - ASBMB

... which encodes Duox genes. 3 **Rac** is another widely expressed candidate **modulator** of the novel Nox enzymes. Some of the earliest suggestions ...

[Cited by 136](#) - [Related articles](#) - [Web Search](#) - [BL Direct](#) - [All 4 versions](#)

... in the developing retina: dependence on neurotransmission and reciprocal regulation by **Rac** and Rho- ►[jneurosci.org](#)

WT Wong, BE Faulkner-Jones, JR Sanes, ROL Wong - Journal of Neuroscience, 2000 - Soc Neuroscience

... **Modulation** of **Rac** function produced opposite results. **Rac** decreased both the rate and the extent of motility, whereas Rac+ increased both parameters slightly. ...

[Cited by 126](#) - [Related articles](#) - [Web Search](#) - [BL Direct](#) - [All 4 versions](#)

Small interfering RNA-mediated down-regulation of caveolin-1 differentially modulates signaling ...- ►[jbc.org](#)

E Gonzalez, A Nagiel, AJ Lin, DE Golan, T Michel - Journal of Biological Chemistry, 2004 - ASBMB

... fold increase,  $p < 0.05$ ) and after S1P stimulation ( $1.9 \pm 0.2$ -fold increase,  $p < 0.001$ ), suggesting that caveolin-1 acts as a negative **modulator** of **Rac** in BAEC ...

[Cited by 73](#) - [Related articles](#) - [Web Search](#) - [BL Direct](#) - [All 6 versions](#)

Key authors: **K Yamada** - **M Araki** - **R Siochi** - **G Schlunck** - **N Keep**
